

TESTIMONIALS IN FAVOUR OF THOMAS H. BRYCE, M.A.,
M.B., FELLOW OF THE FACULTY OF PHYSICIANS AND
SURGEONS, GLASGOW, LECTURER ON ANATOMY TO
WOMEN STUDENTS IN THE UNIVERSITY OF GLASGOW.

2 BUCKINGHAM TERRACE,
GLASGOW, W., *September 11th, 1893.*

*To the UNIVERSITY COURT
OF ABERDEEN UNIVERSITY.*

MY LORDS AND GENTLEMEN,

I beg to offer myself as a candidate for the Examinership in Anatomy in the University of Aberdeen.

I am a Graduate in Arts and Medicine of Edinburgh University, having taken my Degree in Arts in 1882, and in Medicine in 1886. In 1890 I obtained, by examination, the Fellowship of the Faculty of Physicians and Surgeons of Glasgow.

After a year in the Royal Infirmary in Edinburgh and a winter of study abroad, I settled in Glasgow, when I received the appointment of Demonstrator of Anatomy in Anderson's College Medical School. This position I held for two sessions, and on the institution of the Medical School of Queen Margaret College in 1890, I was invited to organize and undertake the Anatomical Department.

Since then I have conducted Courses on Anatomy—Junior and Senior Classes and Demonstrations, and Summer Classes on Embryology and Morphology—these Classes being recognized as qualifying for the Examinations of the University of Glasgow, and of the Triple Qualification Board.

In the practical work of the Dissecting Rooms I have had charge of between 40 and 50 pupils.

This year I have received the honour of appointment by the University Court as "Lecturer on Anatomy to Women Students in the University of Glasgow."

I have the honour to be,

MY LORDS AND GENTLEMEN,

Your obedient Servant,

THOMAS H. BRYCE.

CONTENTS.

1. From JOHN YOUNG, M.D., Professor of Natural History in the University of Glasgow, and formerly Dean of Queen Margaret College Medical School for Women.
2. From A. M. BUCHANAN, M.A., M.D., etc., Professor of Anatomy, Anderson's College Medical School, Glasgow, and Examiner in Anatomy, Glasgow University.
3. From HENRY E. CLARK, F.F.P.S.G. and M.R.C.S., Professor of Surgery in St. Mungo's College, formerly Professor of Anatomy, Dean of the Medical Faculty of St. Mungo's College, Examiner in Anatomy for the Triple Qualification of the Scotch Colleges, etc.

From JOHN YOUNG, M.D., Professor of Natural History in the University of Glasgow, and formerly Dean of Queen Margaret College Medical School for Women.

UNIVERSITY OF GLASGOW,
9th September, 1893.

DR. BRYCE'S appointment as teacher of Anatomy in Queen Margaret College has been a singularly fortunate one, his pupils having acquitted themselves very creditably at all their examinations. I have had to supply him with illustrations for his lectures from the specimens in my care, and thus have come to know the broad view he takes of his subject as well as of his duties as a teacher. I most heartily support his application for the vacant Examinership at Aberdeen, for which he is eminently qualified by knowledge, as well as by a remarkable degree of that sympathetic tact which will assist candidates to do justice to themselves.

JOHN YOUNG.

*From A. M. BUCHANAN, M.A., M.D., etc., Professor of Anatomy,
Anderson's College Medical School, Glasgow, and Examiner in
Anatomy, Glasgow University.*

ANDERSON'S COLLEGE MEDICAL SCHOOL,
GLASGOW, 9th September, 1893.

I HAVE much pleasure in strongly recommending Dr. THOMAS H. BRYCE for the office of Assistant-Examiner in Anatomy to the University of Aberdeen.

Dr. Bryce has devoted himself very specially to the study of Anatomy, both as a student and a teacher, and his experience is now large and varied.

He was intimately associated with me as Demonstrator for two years, and I can confidently speak to his zeal, enthusiasm, and success as an instructor in Anatomy.

Since resigning his Demonstratorship he has filled with great acceptance and success the office of Lecturer on Anatomy in the Queen Margaret College of the University of Glasgow. I consider him to be a most eligible candidate for the vacant Examinership, and the Professor of Anatomy in Aberdeen University would find in him a most agreeable colleague.

A. M. BUCHANAN.

*From HENRY E. CLARK, F.F.P.S.G. and M.R.C.S., Professor of
Surgery in St. Mungo's College, formerly Professor of Anatomy ;
Dean of the Medical Faculty of St. Mungo's College ; Examiner
in Anatomy for the Triple Qualification of the Scotch Colleges, etc.*

MR. T. H. BRYCE, M.B., C.M., has been well known to me for several years, and I have been familiar with his work as Lecturer on Anatomy at Queen Margaret College. Being also one of his examiners when he presented himself for the Fellowship of the Faculty of Physicians and Surgeons of Glasgow, I had the opportunity of thoroughly testing his anatomical knowledge, and can attest that it is wide and accurate. He has gained an excellent reputation as a teacher of Anatomy, and possesses all the qualifications necessary to make a good Examiner on that subject.

On these grounds I can confidently recommend him for the appointment of Extra-Academical Examiner in Anatomy at the University of Aberdeen.

HENRY E. CLARK.
